The Secure Inbox allows the user to view alerts.

The Help opens in a new browser window – this is from the Fiserv Real Time Alerts User Interface.

Real Time Alerts User Interface

Real Time Alerts combines the Enterprise Alert Platform (EAP1151) and the Alert Hub to provide you with an improved alerting experience. Real Time Alerts provides you with real time alert notifications by email, online options (Secure Inbox), and text messages. The Alert Hub integrates Real Time Alerts with account processing platforms for user registration, alert templates, alert distribution, and online API access. Additionally, Real Time Alerts simplifies the alert set up process and makes it more intuitive.

Access the following by using the Real Time Alerts User Interface:

[User Interface Navigation](#)

You can access Retail Online, Business Online or Abiliti to navigate within the Real Time Alerts User Interface.

[Real Time Alerts](#)

You can use the Real Time Alerts User Interface to view triggered alerts, establish new alerts, edit alerts, and delete alerts.

[Alert Options](#)

You can use the Real Time Alerts User Interface to view the alerts that your financial institution provides for your account.

[Contact Options](#)

You can use the Real Time Alerts User Interface to add your contact information for both email and text messages.

[How To](#)

You can use the Real Time Alerts User Interface to manage new and existing alerts.
